## MARINE RAILWAY AT ST. THOMAS.

A COMPANY was formed three years since in the Danish Island of St. Thomas, for the purpose of building a Marine Railway, capable of taking up vessels of 1000 tons burden. Engineers were sent out from England, as well as all the machinery for its construction. The Railway is now completed, and the Directors having spared no expense in building it in the most substantial and perfect manner, competent persons, after very careful examination, and witnessing the practical operation of its powers, have pronounced it a finished piece of workmanship, equal in every respect to any Marine Railway in Europe or the United States. The harbor of St. Thomas is safe, commodious, and easy of entrance to vessels of the largest capacity; and all the necessary materials, of the best description, for repairing vessels, are constantly for sale at reasonable prices. The mechanics are as skillful as can be found elsewhere, and the expenses of repairing are more moderate than at any other port in the West Indies.

Masters of vessels sustaining injury at sea, and under the necessity of proceeding to a southern port for repairs, are invited to consider the many advantages enjoyed by St. Thomas, not only as it respects the despatch and facility with which their repairs can be completed, but for the certainty of finding there every thing requisite and necessary to complete them, and at prices varying but little from what would be charged in the principal cities of this country. ## GREAT BARGAIN. TIMBER LAND FOR SALE.

THE Subscriber offers for sale, on good terms, and at a low price, about one sixth part of Township No 7, in the 3d Range north of the Bingham purchase.

Said Tract was set off by Commissioners appointed in Sept. 1841. There is quite a quantity of Timber on one part of it, and the other part is said to be first rate settling land.

It is well situated and well watered. The Lumber always sure to come the first season. The Madagoudas and its branches, Mad Brook and Meadow Brook, good running streams, (which empty into the Mattawamkeag) all run into different parts of the Township, and afford a good opportunity for the lumber operator to get his lumber to market early in the season. ## REPORT

OF THE

## SUPERINTENDING SCHOOL COMMITTEE.

To the Mayor, Aldermen and Common Council of the City of Bangor :

Pursuant to the requisition of law, the Superintending School Committee of said city submit to the City Council a report of the Department of which they have had the charge during the past year.

The amount raised for the support of the high schools for girls and for boys and the common schools was six thousand five hundred dollars. \$6,500  
To which may be added the Bank tax, 433,31

Amounting to the sum of,	\$6,933,31
The ordinary expenditures for the support of schools may be stated as follows, to wit:	
For the salaries of Instructors,	\$5,916,83
" Rent,	186,03
" Fuel,	329,95
" Ordinary repairs,	343,21
" Books,	83,77
	\$6,859,79
Leaving the balance unexpended	\$73,52

It is proper, however, to remark, that the amount of orders drawn by the Mayor on this department during the last political year is \$7,491,74  
This sum embraces for outstanding claims at the commencement of the year. \$395,75  
For extraordinary repairs and expenditures 236,20  
" current expenses of the schools as stated above 6,859,79

It is not unusual for the city government to call on the Committee for an estimate of the expenses of the schools, and at the commencement of this year such an estimate was made; in conformity with which, the City Council raised the sum of 6,500 dollars. Had the outstanding claims been provided for by a transfer to the contingent fund, or in some other manner, and the extraordinary expenditures, which consisted among other things, in removing and fitting up a school house on Pearl Street, making a floor under the High School House, and new stoves for the New School Houses, by specific appropriations, no over drawing would have been necessary. The outstanding claims and the extraordinary expenses amount to \$631,95 and ought to be transferred to some fund, which has a surplus, if any such there be, or provided for by a specific appropriation. For if it should be raised, as a part of the money for the support of Common Schools, the Districts, other than District No. One, will be entitled to their share of the amount, and have a claim to more money than is required to support their schools.

The whole number of scholars, between the age of 4 and 21, inclusive, on the first day of May last, was 3,136. The number of scholars, who have attended school, more or less, the past year, is 2,230. The average daily attendance is 1,565. Thus it appears, that, of the whole number between the age of 4 and 21, about one half daily attended school: the attendance has been improving for several years, but it is yet, far short of what it ought to be. It is sad to reflect, that only one half of the whole number of the scholars give their daily attendance at our schools.— On the other hand, the Committee are satisfied, that those, who do attend, have the instruction of able and faithful teachers, and, for the most part, make that proficiency, which a reasonable attention to study would lead one to suspect. No man however, who visits some of our schools, and remains in them a short time, can fail to perceive, that a greater degree of order, than exists, would be desirable; and that a more earnest devotion to study might be pursued with great advantage to the pupil. A habit of industry should be sought and acquired by those scholars, who are somewhat advanced in age and mental discipline; and the time of the school should be devoted, either to study, or the recitation of their lessons.

The high schools for girls and for boys, and the select school for girls, have heretofore enjoyed a high reputation, and continue to deserve well of the city.— Several of the infant schools are managed with a high degree of excellence, and the Committee are happy to bear testimony to the zeal and success, with which the teachers in general, perform their arduous duties.

The Committee notice with approbation the attention, which has been paid to physiology in two or three of the schools for females. This is an important study for all, and especially for young ladies.— They are also pleased to see, that music, the most interesting and delightful of all accomplishments, is cultivated in many of our schools, and, in some of them, with great success.

The Committee notice, with high approbation, the judicious improvements made in our school houses during the past year. The new brick house on State Street, two stories high, contains two spacious rooms with class rooms adjoining, which is seated to accom-

modate about two hundred scholars. The lot is surrounded with substantial fences and does honor to the liberality of the city. A new school house has been built in the rear of the house on Hudson-street, and a school house has been removed from Essex-street to Pearl-street, and fitted up, so as to accommodate the children in that section of the city. A great improvement has also been made in the brick school house on Union-street, and in the appearance of the grounds about it. Owing to the grading of the streets a few years since, the house was left, perched high above the level of the street, presenting a most disagreeable object to the eye, and threatening to fall in ruins. The earth has been removed and a basement story has been formed under the building, which furnishes a spacious and convenient room for the apprentices school, and wood-house for the several schools in that house. Out-buildings and fences have been erected, and the ground in front handsomely sodded, so that the whole now assumes a pleasant aspect. The outlay in erecting and improving these buildings appears to be judiciously made and adds much to the beauty of the city and to the accommodation of the schools.

The Committee feel it their duty, however, in order to meet the increasing population of the city, to recommend the erection of a school house in the vicinity of York and Hancock Streets, similar to that on Division-street, to accommodate the scholars in that section of the city. The number of scholars attending the schools taught by Miss Merrill and Miss Thayer is 250, and the daily attendance about one hundred and eighty. These numbers are much too large, even if rooms, affording the greatest convenience, were to be had. But it is well known, that the room occupied by Miss Thayer, is altogether unworthy the name of a school house.

The Committee have recently established a school for boys, composed chiefly of the scholars attending the schools taught by Messrs. Valentine and Souther. It has been considered for several years to be an object of the highest importance to introduce a system of classification into our public schools; and it has been thought that the symmetry of the system would be more perfect by establishing this school. The city council are aware that a select school for girls was established in this city, several years since, and that it has worked well under the charge of Mr. Littlefield. The Committee have reason to believe that this project may be no less successful, and that it will be found to furnish annually a large number of pupils well qualified for the high school for boys. This school has been placed under the care of Mr. Bowler, who has, for several winters, taught school in this city with great success.

A change has been made in the vacations, under a full conviction, that it would promote the good of the schools, and the convenience of the parents and instructors. Parents often need the assistance of their children at seed time, and while they are preparing their gardens in the spring, which causes the attendance of the scholars in the latter part of May to be very irregular; and as heretofore arranged, the summer term has extended far into August, when the weather is oppressively warm and relaxing. The Committee have therefore directed that the first term shall commence on the 3d Monday of March and continue nine weeks, when there is to be a vacation of two weeks. The second term shall commence on the 1st Monday of June and continue for nine weeks, when there shall be a vacation of five weeks. The third term shall commence on the 2d Monday of September and continue twelve weeks; and then there shall be a vacation of one week. The fourth term shall commence on the 2d Monday of December, and continue twelve weeks, when there will be a vacation of two weeks.

On the whole, the Committee are satisfied, that the progress of the schools in this city, for several years past, has been, and still is, onward; and that the citizens have reason to congratulate themselves upon what has already been accomplished; at the same time they should remember, that there remains, and will forever remain, room for improvement.

Voted, That the Common Council invite the Mayor and Aldermen to unite with them in visiting the public schools in the city on Thursday next.

Adj. to the 2d Monday in April, at 2 o'clock, P. M.

The editor of the Lincoln Republican talks like a man, like an American, like a Patriot that loves his country, when speaking upon the American Manufactures. He thus discourses:—

We love the very name of "American Manufactures!" During the commercial restrictions of 1818 and from that period to the peace of Ghent in 1815, the true test of a genuine Democrat (one dyed in the wool) was to encourage American Manufactures, of whatever name or nature, to the utter exclusion of everything British and foreign. How did Mr. Jefferson boast of the suit he wore in public of entire American Manufacture. All who then dared to advocate FREE TRADE were FEDERALISTS and Tories! What! said the Jeffersonians of that day—what! "Will you encourage the hirelings of haughty England to clothe you, and thereby acknowledge that there is not ingenuity enough in a native Yankee to make the cloth he wears?" "How humiliating!" There was no sending Cotton to England then; and the DEMOCRACY of the South, then, was to encourage "our own MANUFACTURES by a TARIFF OF PROHIBITION!"

But how are times changed, and how are we changed with them! Now, Free Trade is the test of modern Democracy; and the Tariff policy, or encouragement of our own manufactures, the test of Federalism. The truth lies here. This nonsense about Federalism and Democracy, was invented by a set of cock-Turkey politicians, who are too lazy to apply themselves to any steady business, but who have, and will strut into office, by the constant employment of high sounding words to delude the unlearned and ignorant, who know now more about the meaning (if any there be) of Democracy and Federalism than the fools and dandies who bandy them.

We say it and we say it boldly, that the man who will encourage Foreign Manufactures to the discouragement, in any way or manner, of our own, deserves not the name of an American, much less that of a Yankee or Republican. I, e. member and supporter of our form of government.

Be a Man.

What if you have been unsuccessful in trade? What if you owe every fifth person you meet, while you have but a sixpence in your pocket, and know not where to look for more when that is gone? Should you be discouraged? Be a Man. Lift up your head and walk erect. Suffer not your spirits to be dampened or your energies to lag. Others have been unfortunate before you; others are in debt, and what is worse, have rotten characters to commence building a reputation upon, if they ever expect to be any thing in life. If you are honest—if strict integrity has marked your course thus far, you have nothing to fear. For our part, we would prefer your situation and standing, with not a mill in our pockets, than with thousands at our command, with broken constitutions, rotten characters and a name, whose very sound awakens painful emotions.

To be something, you must exert yourself—not to-day merely and to-morrow, but for a twelve-month, or a dozen years to come, if it need be. To be a man—a real, sterling character—you should never be weary—never give out—never cease to exert yourself to the utmost of your ability. There never was a man dead poor, ignorant and despised, who put forth strenuous exertions to rise in the world. The thing is impossible. Be a man then, we pray you.—Look up and raise your standard high. Do something every day and look men full in the face without fear and trembling, and as true as you live, if you are now in debt, poor and despised, you will rise to competency to honor and to true independence, in every sense of the word.

¶ We have received from the publishers, Willis & Co's Bank Note List and Counterfeit Detector for March. This is valuable work.

¶ We would particularly call the attention of our readers to the excellent report of the Superintending Committee which appears on the first page of this paper.

### REDUCTION FOURFOLD IN PRICES—OR NOTHING.

AN article that every family must consider indispensable, when they know its power and value and which has heretofore been sold too high to bring it to all classes, has now been reduced fourfold in price, with a view that rich and poor, high and low, and in fact every human being may enjoy its comforts; and all who get it shall have the price returned to them if they are not delighted with its use. We assert, without the possibility of contradiction, that all burns and scalds, every external sore, old or fresh, and all external pains and aches, no matter where, shall be reduced to comfort by it in five minutes—saving life, limb or scar. No burn can be fatal if this is applied, unless the vitals are destroyed by the accident. It is truly magical, to appearance, in its effects. Enquire for "Conner's Magical Pain Extractor," at Cornstock & Co's., 21 Cortland street. Price 25 cents, or four times as much for 50 cents, and ten times as much for \$1.

### LOOKING GLASS & PICTURE FRAME MANUFACTORY.

FAIRBANKS & HOLLAND.

PEARSON'S MILLS, BANGOR.

THE public are informed that we have established a manufactory for making LOOKING GLASS, PORTRAIT AND PICTURE FRAMES of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and ill looking ones, and at as low a price.

Large and elegant G and bevel frames, and small bevel frames with rich mahogany veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

WHOLESALE,

by the hundred or thousand, at prices that cannot but be satisfactory to dealers.

New frames fitted to Portraits, Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

Dealers supplied with frames either with or without glasses.

N. B. Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise.

For the convenience of our city friends, orders for frames of any kind may be left at the Hardware store of DAVID MOSMAN on East Market Place.

### COUGHS, COLDS, &c.

COUGHS, Colds, Spitting of Blood, Asthma, and all complaints of the chest, lungs and liver, will be cured by the Extract of Lungwort, when all else fails. This we assert without fear of the least contradiction. Besides, it does not require the false certificate of the panacea balsams and candies, to induce invalids to use this great restorative. One trial will convince the sceptical, that its virtues are far above price. To be found only, at G. W. LADD'S, corner of Smith's Block, West Market Place.

One of this firm is the PATENTEE of the highly useful and popular Platform and Counter Balances for weighing merchandise. These they are continually manufacturing and sell them at much less prices than similar articles can be purchased in Boston or any other city in the Union. They ask the attention of the trading community to these balances as something superior.

We beg to suggest to all interested in the prosperity of our city and all down east, to encourage home manufacture when that manufacture deserves it.

All kinds of Country Produce and Lumber taken in exchange.

PIANO FORTES TUNED AND REGULATED.

One of the firm, J. A. WOODBURY, will give particular attention to tuning and regulating Pianos, and those favoring them with their patronage shall have their Instruments tuned and regulated in the most thorough and scientific manner. If not to their satisfaction no charge will be made.

## PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order; they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon. J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquires, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of Messrs. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

## DR. TAYLOR'S BALSAM OF LIVERWORT.

PRICE REDUCED.

DR. TAYLOR'S Balsam of Liverwort, from

Coughs, Colds, Catarrhs, Asthma, Hoarseness of the Chest, Pain in the side and Breast, raising of Blood, Liver complaint, Bronchitis, and all those affections of Throat and Lungs which are a source of so much suffering and unrelieved, so often terminally distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases, with safety as well as utility. Physicians, aware of its medicinal properties, and witnessing its effects even in extreme and in some instances apparently almoning cases, often prescribe it in their practice, both as a palliative and a remedy, and with the Medical Faculty generally it has met with great approbation.

Consumption.—The following remarks were taken from the last number of the Medical Magazine: "The surprising effect produced by the genuine Dr. Taylor's Balsam of Liverwort, made at 375 Bowery, in consumptive cases, cannot fail exciting deep and thrilling interest throughout the world. We have so long considered this disease (consumption) incurable, that it is difficult to credit our senses when we see persons, evidently consumptive, restored to health. Yet it is a fact of daily occurrence."

Certificates from the highest and most respectable sources, or persons who have been either greatly relieved by it, or entirely recovered from affections of the Lungs and Liver, could be furnished in abundance, but we insert only the following:

Liver Complaint and General Debility. I was given up by two physicians, and told to prepare for death. I was so weak I could not raise my head to my bed. I was in this low state, when a friend sent me a bottle of Dr. Taylor's Balsam of Liverwort, from 375 Bowery, and before I had used up the bottle, I was able to sit up in bed. By the further use I have completely regained my health.

For a common cold and cough, this is one of the very best remedies ever discovered.

N. B. There is a spurious and counterfeit article afloat; therefore be careful to get the genuine, which is from 375 Bowery, N. Y., and is for sale by G. W. LADD, Agent, Bangor.

## THE PILES AND ALL SORES.

HAY'S LINIMENT is known now to thousands, as a most extraordinary remedy for these affections. It is impossible to tell in a newspaper, in such a manner, as to obtain full credence, the effects and benefits of this article, so general in the practice of advertisers of extolling articles of no merit. Such personal reference will be given as to bring conviction to the minds of the most unbelieving. Will sufferers only ask among their friends, if they have not heard or known its effects; and if they do not hear it more warmly praised than any other salve, let them not get it. All fancy or exaggeration is positively excluded from the statements, and it is determined to say nothing of its merits, but what could be fully proved by a host of witnesses, in any court of justice. Will you look at the thing and the proof where it may be had? at G. W. LADD'S, A. P. GUILD'S, and A. YOUNG, JR. & Co., formerly Holden's.

## CLEANLINESS OF THE HEAD AND HAIR.

STRANGE it is that persons who attend strictly to personal cleanliness, bath, &c., should neglect the Head—the Hair—the most essential—the most exposed—and the most beautiful, when properly cared for, of all the gifts of the Creator. Perfectly free may it be kept of dandruff or scurf, with a certainty that the hair cannot fall out, by the use of the BALM OF COLUMBIA. Ladies will make your toilet without this article? I answer fearlessly no, if you have once tried and experienced its purifying effects—sweet perfume.

## THE SICK HEADACHE.

THIS DISEASE is one from which arises more misery to the human family than is generally supposed; not being directly fatal, it is often neglected, or persons resort so much to the use of purgatives and other medicines as to impair their general health, and often induce fatal diseases. The article—Dr. Spohn's HEADACHE REMEDY—now offered seems to have overcome these difficulties. While its effects are most powerful and immediate in curing an attack or keeping it off, it is so perfectly mild and innocent as to be used for infants with the greatest effect and safety. This has now been tested by so many of the highest members of this community as to require no further proof.

## RHEUMATISM CURED.

DR. HEWES' Nerve and Bone Liniment or Indian Vegetable Elixir, is the only certain and effectual remedy for Rheumatism, Gout, and the contracted Cords, &c. In the most severe cases the above application was never known to fail. We might multiply a volume of testimonials to these facts, but prefer to have persons call where the above may be had, and where they can see the proofs of its efficacy, that would convince the most incredulous.
